

USB 3.0 Front Panel 4 Port Hub – 3.5in or 5.25in Bay

Product ID: 35BAYUSB3S4

The 35BAYUSB3S4 3.5-inch Front Bay to 4-Port USB 3.0 Panel Hub is TAA compliant and turns any available 3.5-inch computer case front bay into a 4-Port USB 3.0 hub.

Using only a single USB connection, this front panel hub adds four easily accessible USB ports to the front of your computer case through a 3.5-inch bay, or through a 5.25-inch bay using the optional [Front Bay Bracket Adapter](#) (BRACKETFDBK) accessory. Each of the added ports is compliant with the USB 3.0 standard which supports up to 5 Gbps of bandwidth (10x faster than the USB 2.0 standard) and up to 900mA of power.

Accessorize with the PEXUSB3S11 PCI Express card to provide an internal USB 3.0 port, so as to keep the external ports free for external devices. Backed by a StarTech.com 2-year warranty and free lifetime technical support.
