## devolo Magic 2 LAN <sup>triple</sup>

Switch to the future now: The Magic 2 LAN triple brings you to multimedia fun of the giga-class without any detours. Its three high-performance Gigabit-Ethernet ports make it unnecessary to use other switches, since you can simultaneously connect multiple network-compatible devices from your multimedia centre. Look forward to enjoying multimedia throughout your home. Thanks to Powerline technology, it converts your mains supply network into a seamless high-end network with maximum speed and not a bit of interference. The Magic 2 LAN triple maintains its speed of up to 2400 Mbps even over long distances, because it effortlessly covers distances of up to 500 metres. And none of this will change in the future, because the Magic 2 LAN triple is already equipped with the technology of tomorrow today.

Up to 2400 Mbps

3x Gigabit LAN

Range up to 500 metres

## devolo Magic 2 LAN<sup>triple</sup>

- **Maximum in every respect:** Maximum Gigabit LAN ports with maximum speeds of up to 2400 Mbps.
- **Three ports for extra-class multimedia:** No more need for a switch – the three Gigabit LAN ports provide easy connectivity for your most important multimedia devices.
- **Reliability over the electrical wiring:** The innovative Powerline technology connects you to the network from anywhere in the house quickly, securely and without interference.
- **We've thought of everything:** Thanks to the integrated power socket with child safety lock, you won't lose out on any power connections.
- **Connects previously unreachable corners:** Masterfully covers distances of up to 500 metres. From the basement, to the attic, to the garage – simply anywhere in your home.
- **Plug & Play:** Simply plug into the power sockets – in a matter of seconds, the adapters connect to one another and are immediately ready to operate.
- **Cutting-edge technology from Germany:** devolo has been developing standard-setting products since 2002 for millions of customers throughout Europe – distinguished with more than 400 awards.
- **Everything at hand:** With the intuitive devolo App, the setup, performance management and adjustment of your home network and the devolo Magic adapter are simplicity itself. Everything is possible directly from the tablet or smartphone and in any room. Available for iOS and Android.
- **The start of a wonderful connection:** Set up your devolo Powerline network with the Starter Kit. Can easily be extended with other devolo Magic adapters at any time.
- **Our promise:** 3-Year manufacturer's warranty.
