

HP Office Pink Ream: continuing the fight against breast cancer

Last year the HP Office Pink Ream campaign raised nearly £200,000 to help fund the battle against a disease that affects 1 out of 8 women in Europe. In 2018 the Pink Ream has returned to fight again, as International Paper partners with Think Pink Europe to support national breast cancer initiatives in over a dozen countries across the continent.

HP Office Pink Ream continues to fight breast cancer. In the 2018 campaign, £0.10 from each pack of this paper will be donated to the Think Pink Europe Organization for breast cancer awareness and prevention programs.
