## Packaging Contents

- 5x Thermal Pad

## Installation

\*actual product may vary from photos

1. Remove the clear plastic backing from the compound to expose the adhesive. Removing the plastic in one quick, smooth motion will ensure that no plastic remains on the adhesive.

3. Smooth the back of the compound with downward pressure to ensure a consistent application.

2. Place the compound (adhesive side down) to the bottom of the heatsink. Generally, affixing the pad to the center of the heatsink offers the best performance.

4. Using a single quick smooth motion, remove the wax paper from the compound. Ensure to remnants of wax paper remain.

5. Install the heatsink and fan according to the instructions from the manufacturer.

6. Ensure that the fit between the processor socket and the heatsink is consistent.

## Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech.com, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgement elsewhere in the body of this document, StarTech.com hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related documents are the property of their respective holders.
