Material interior : Recycled pressboard

Thickness material interior : 170G/M2

Color paper : Black

Spine : stapled

Capacity (sheets 80 gr.) : 450

Closure type : With elastic straps - 3 flaps

The Teksto range is made around ecological values, materials of plant origin or recycled but sustainable with a trendy textile effect. Teksto is the organisational solution of the future in a zero plastic world.

In addition to a material innovation, the Teksto multipart file is the first card file equipped with 3 flaps which allow loose sheets to be stored before filing them in their section.

A cover page is designed to easily identify each section.

The elasticated closure protects documents and guarantees safe mobile use, whether professional, school or just personal organisation.

The card used and the finished product are manufactured in France, in the factories of the Exacompta-Clairefontaine Group. The multipart file is also FSC certified, responsible forest management.
